A Letter from the Superintendent

Dear Friends and Neighbors,

Thank you for your interest in the Winchester School System. We are a community of learners who depend on each others skills and leadership to assure that all learners are given the tools to succeed.

We are committed to doing whatever is necessary to assure that every child learns. The support of our community allows us to offer a diverse program and appropriate class sizes to aid us in reaching our goals. The views of parents and the community at large figure strongly into our work.

We have a dedicated staff of teachers and administrators who look forward to sharing the great work of educating the community's children.

If you share this commitment to excellence, we hope you will join us and get involved.

Sincerely,

Blaise A. Salerno  
Superintendent of Schools
